LETTER OF RECOMMENDATION

To Whom It May Concern,

It is with great pleasure that we recommend Endor by Design. Since 2019, we have had the privilege of working closely with their team on a variety of services, including website development, design, maintenance, hosting, and business consulting. Their expertise has been invaluable to our business, and they have consistently delivered results with professionalism and precision.

In particular, Afsana from Endor by Design has been an absolute asset to us. Her extensive technical knowledge, especially in Meta, Google Ads, and our WordPress website, has been crucial in helping us navigate any challenges that have come our way. No matter the complexity of the issue, Afsana is always quick to provide a solution, and her broad skill set ensures that all aspects of our digital presence are expertly handled.

Endor by Design's team is not only knowledgeable but also highly approachable and dependable. They've continuously offered us outstanding support, and we truly value the working relationship we've built over the years.

We wholeheartedly recommend Endor by Design for any business seeking a reliable and knowledgeable partner in web development, design, hosting, digital advertising, and business consulting.

Sincerely,
Jackie Hahn
